BNGP , an organization of UzbekNefteGaz National Holding Company (UNG), provides following types of services in the Republic of Uzbekistan:

- drilling oil and gas wells
- drilling water wells
- directional drilling of oil wells
- overhaul of oil and gas wells, mounting holes

Company has been working in this field since 1959 and has a good reputation among its clients by providing high quality services for reasonable price. The Company is one of the largest organizations of construction and drilling horizontal and directional oil and gas wells. The total amount of incomes is forecasted for 2019 to be 310,322,493.3 USD and the total amount of profit forecasted in 2019 will be 8 710 382.28 USD.

The Company is one of the largest organizations of construction and drilling horizontal and directional oil and gas wells. The company also has 77 units of various machineries, including 12 units of drill rigs and 65 units of vehicles. Number of employees is 1005 people.

In order to introduce modern management skills and renovation of the Company's material and technical base up to 15 percent of Company's shares have been imposed in the Republican Stock Exchange «Tashkent».

Today very favorable investment conditions has been established in the Republic of Uzbekistan, by providing several tax and customs preferences and protecting rights and interests of companies with foreign investments.

We are confident that acquisition of state shares in the abovementioned enterprise can open up new opportunities in the rapid growing market of the Republic of Uzbekistan.

Besides above stated we are open to discuss further options of cooperation.
