NGQS, an organization of UzbekNefteGaz National Holding Company (UNG), provides following types of services in the Republic of Uzbekistan:

- water well drilling
- oil and gas well overwork
- well casing and cementing
- horizontal and controlled directional drilling
- provision of services for drilling muds and cement grouting
- surveying works
- services on testing the exploration oil and gas wells

Company has been working in this field since 1965 and has a good reputation among its clients by providing high quality services for reasonable price. The volume of output of JSC "NGQS" has been growing by more than 2 times from 2010 to 2014. The Company operates stably at a profit.

In 2015, JSC "NGQS" is expected to make total revenue in the amount of 14.3 million USD.

In order to introduce modern management skills up to 31 percent of Company's shares have been imposed in the Republican Stock Exchange "Tashkent".

Today very favorable investment conditions has been established in the Republic of Uzbekistan, by providing several tax and customs preferences and protecting rights and interests of companies with foreign investments.

We are confident that acquisition of state shares in the abovementioned enterprise can open up new opportunities in the rapid growing market of the Republic of Uzbekistan.

Besides above stated we are open to discuss further options of cooperation.
